

AshLe' Penn

RECRUITING COORDINATOR & CANDIDATE EXPERIENCE SPECIALIST
| 424.242.3374 | ashlepenn.ap3@gmail.com | linkedin.com/in/experttalentacquisition

EXECUTIVE SUMMARY

Talent acquisition professional with six years of full-cycle recruiting experience who has consistently operated at the intersection of strategic recruitment and operational coordination — not as adjacent functions, but as one integrated practice. Having served as both recruiter and de facto coordinator simultaneously across agency, in-house, and enterprise environments, I bring a recruiter’s understanding of what coordination support actually needs to accomplish and a coordinator’s fluency in executing it without friction. My candidate experience philosophy is deliberate: every touchpoint — from first outreach through final decision — is an opportunity to build genuine rapport, communicate with clarity, and leave candidates with a lasting impression of the organization regardless of outcome. I have coordinated individual and panel interviews across all levels of seniority, sat on hiring panels as a contributing evaluator, and developed a practice of recycling near-miss candidates into adjacent pipelines — compressing time-to-fill, reducing sourcing redundancy, and improving overall workforce balance organically. Proficient in Greenhouse, UKG, Bullhorn, GEM CRM, and Google Workspace. Deeply aligned with Anthropic’s mission: building AI that is safe, interpretable, and genuinely beneficial is the defining work of this moment, and I want to be part of assembling the team doing it.

PROFESSIONAL EXPERIENCE

Central City Concern — Sr. Recruitment Specialist Aug. 2024 — Present
Embedded within a \$120M+ nonprofit social services organization as the primary recruiting engine — simultaneously owning the recruiter and coordinator functions across a high-volume, compliance-sensitive environment spanning supportive housing, behavioral health, and executive leadership pipelines.

- Managed 35+ concurrent requisitions monthly with full ownership of interview scheduling — individual and panel formats — debrief sequencing, reference coordination, and offer workflow execution.
- Served as sole candidate-facing contact at every stage, delivering communication that was consistently warm, precise, and timed to keep candidates informed and engaged without requiring prompting.
- Sat on hiring panels across coordinator, specialist, and leadership-level searches, contributing structured evaluative input that improved hiring team decision quality and reduced post-offer regret.
- Instituted a candidate recycling practice — systematically routing near-finalists into adjacent open roles — that measurably compressed time-to-fill and reduced sourcing redundancy across the organization.
- Reduced overall time-to-fill by 25% through proactive process optimization across UKG Recruiting, GEM CRM, and SharePoint, including calendar conflict resolution and interview guide standardization.

Randstad Technologies — Technical Talent Acquisition Account Manager Jul. 2022 — Jul. 2024
Functioned as the singular talent operations point of contact for a Fortune 500 West Coast technology client — carrying both the recruiter and coordinator load across senior technical and leadership pipelines, multi-timezone stakeholder calendars, and an offshore delivery team.

- Owned end-to-end interview logistics for individual and panel formats across technical, specialist, and executive-level searches — navigating competing priorities across hiring managers, panels, and candidates simultaneously.
- Drove 60% increase in client utilization and 70% gain in operational productivity by redesigning coordination workflows that eliminated scheduling lag, reduced rescheduling frequency, and tightened recruiter-to-candidate communication loops.
- Rebuilt offshore delivery team coordination structures using OKRs and performance frameworks, improving sourcing output quality and stakeholder satisfaction without increasing headcount.
- Proactively surfaced candidate experience gaps and scheduling friction points to recruiting leadership — generating process improvements that reduced candidate drop-off and improved pipeline integrity.

The Mainz Brady Group — Technical Staffing Manager Apr. 2021 — Jul. 2022
Built a specialized recruiting practice for senior technical and IT leadership placements across West Coast markets, becoming known for an approach to candidate experience that treated every interaction — not just the offer — as consequential to the organization’s reputation.

- Coordinated multi-stage interview logistics for retained executive searches, including scheduling across senior leadership panels with competing calendar constraints and high sensitivity to candidate discretion.
- Owned every candidate-facing touchpoint from initial engagement through close, sustaining high response and engagement rates through communication that was substantive, warm, and never templated in tone.
- Partnered directly with recruiters on intake calibration, candidate readiness assessment, and real-time hiring criteria refinement — operating as a strategic contributor, not just a logistics resource.
- Leveraged advanced sourcing and relationship-driven outreach to build passive pipelines for niche technical roles, reducing time-to-slate on hard-to-fill searches.

Virginia Garcia Memorial Health Center & Supplemental Health Care — Healthcare Recruiter Nov. 2020 — Mar. 2021
Delivered high-volume recruiting and scheduling coordination during COVID-19 pandemic response, supporting large-scale staffing operations under significant time pressure and operational ambiguity.

- Coordinated scheduling for physician, advanced practitioner, and clinical staff interviews across multiple hiring managers and facilities during rapid workforce scaling.
- Supported deployment of large-scale vaccination clinic staffing operations, managing logistics under dynamic, fast-changing conditions with limited process precedent.
- Improved recruiting ROI by 60% and reduced time-to-hire by 30% through targeted coordination improvements and streamlined candidate communication workflows.

OPTI Staffing Group — Senior Operations Recruiter Jul. 2019 — Nov. 2020
Directed full-cycle recruiting from business development through candidate placement while managing scheduling operations, intake coordination, and candidate communications across multiple concurrent client accounts.

- Conducted consultative intake sessions with hiring managers to define scheduling requirements, interview formats, and candidate evaluation criteria.
- Managed behavioral interview scheduling, candidate debriefs, and reference check coordination across multiple industries and workforce environments.
- Served as primary candidate contact throughout the pipeline, advising on process expectations, timelines, and next steps with consistent responsiveness.

EDUCATION

Portland State University — Bachelor of Science, Communication 2027 (in progress)
Portland Community College — Associate of Science, Communication 2016

PROFICIENCIES

ATS / Scheduling / CRM: Greenhouse, UKG Recruiting, Bullhorn, GEM CRM, JIRA, SharePoint, HubSpot, Google Workspace (Calendar, Gmail, Meet).
Candidate Coordination: High-volume interview scheduling, debrief coordination, reference checks, offer workflow management, multi-timezone calendar management, candidate communications.

Sourcing & Talent Operations: Boolean/X-Ray/Vector sourcing, passive engagement, drip campaigns, job requisition development, compensation benchmarking, offer strategy.

Compliance & Process: HCM planning, OIG/Nursys/Q4 compliance, SOW/FAR, 360° referencing, AIRS diversity recruitment methodology, Agile/Scrum coordination frameworks.

Core Competencies: Proactive problem-solving, recruiter partnership, process improvement, executive communication, ambiguity navigation, diversity-focused hiring.
