Credit scores

FICO® Score 8

Your score is well below the average score of U.S. consumers and demonstrates to lenders that you are a risky borrower.

What's helping

✔ Long credit history

- You have an established credit history.
- Your oldest account was opened: 11 Years, 3 Months ago
- FICO High Achievers opened their oldest account 25 years ago, on average.
- Average age of your accounts: 7 Years, 8 Months
- Most FICO High Achievers have an average age of accounts of 9 years or more.
- FICO® Scores measure the age of the oldest account and the average age of all accounts being reported. Generally speaking, having a relatively long credit history and not opening many new accounts is reflective of lower risk.

What's hurting

— Negative items

- You have a serious delinquency or derogatory indicator, public record and/or collection on your credit report.
- Number of your accounts that were ever 60 days late or worse or have a derogatory indicator: 14 accounts
- Virtually no FICO High Achievers have a 60 days late payment or worse listed on their credit report.
- Number of collections on your credit report: 4 collections
- Virtually no FICO High Achievers have a public record or collection listed on their credit report.
- The presence of a serious delinquency or derogatory indicator and a derogatory public record (such as a bankruptcy) or collection is a powerful predictor of future payment risk. However, newer versions of the score including FICO® Score 9, FICO® Score 10, and FICO® Score 10 T only consider unpaid collections. Most collections, public records and delinquencies stay on the report for no more than seven years - though there are certain items that could remain longer. As these items age, they may have less impact on the FICO® Score. Satisfying the public record or paying off the collection will not remove the item from a credit report. And it will still be considered by a FICO® Score as long as it is reported.

— Lack of recent revolving information

- There is insufficient or no recent activity on revolving and/or open-ended accounts.
- The FICO® Score evaluates the mix of credit cards, loans and mortgages on a credit report. Your credit report shows no open revolving and/or open-ended accounts or sufficient recent information about your revolving and/or open-ended accounts. People who demonstrate responsible use of different types of credit, including revolving accounts, are generally less risky to lenders.

— Bad payment history

- You have one or more accounts showing missed payments or derogatory indicators.
- Number of your accounts with a missed payment or derogatory indicator: 14 accounts
- About 98% of FICO High Achievers have no missed payments at all. But of those who do, the missed payment happened nearly 4 years ago, on average.
- The presence of missed and late payments or derogatory indicators on a credit report, including the number of late payments, how late they were and how recently they occurred, are correlated with future credit risk. Your FICO® Score was lowered due to the number of missed and late payments and/or accounts with derogatory indicators reported. As the number of accounts with delinquency or derogatory indicators decreases, they have less impact on a FICO® Score.

— Recent collection and/or PR

- You have a recent public record and/or collection on your credit report.
- Your most recent collection occurred: 3 Months ago
- Virtually no FICO High Achievers have a public record or collection listed on their credit report.

- The recency of a derogatory public record (such as a bankruptcy) or collection is a powerful predictor of future payment risk. However, newer versions of the score including FICO® Score 9, FICO® Score 10, and FICO® Score 10 T only consider unpaid collections. Note, satisfying the public record or paying off the collection will not remove the item and it will still be considered by a FICO® Score as long as it is reported. As these items age, they may have less impact on a FICO® Score. Most public records and collections stay on your report for no more than seven years - though there are certain items that could remain longer.

Disclaimer

About your FICO® Score 8 or other FICO® Scores

Your FICO® Score 8 powered by Experian data is formulated using the information in your credit file at the time it is requested. Many but not all lenders use FICO® Score 8. In addition to the FICO® Score 8, we may offer and provide other base or industry-specific FICO® Scores (such as FICO® Auto Scores and FICO® Bankcard Scores). The other FICO® Scores made available are calculated from versions of the base and industry-specific FICO® Score models.

Base FICO® Scores (including the FICO® Score 8) range from 300 to 850. Industry-specific FICO® Scores range from 250-900. Higher scores represent a greater likelihood that you'll pay back your debts so you are viewed as being a lower credit risk to lenders. A lower FICO® Score indicates to lenders that you may be a higher credit risk. There are many scoring models used in the marketplace. The type of score used, and its associated risk levels, may vary from lender to lender. But regardless of what scoring model is used, they all have one purpose: to summarize your creditworthiness. Keep in mind that your score is just one factor used in the application process. Other factors, such as your annual salary and length of employment, may also be considered by lenders when you apply for a loan.

What this means to you:

Credit scoring can help you understand your overall credit rating and help companies better understand how to serve you. Overall benefits of credit scoring have included faster credit approvals, reduction in human error and bias, consistency, and better terms and rates for American consumers through reduced costs and losses for lenders. Your lender or insurer may use a different FICO® Score than FICO® Score 8 or other base or industry-specific FICO® Scores provided by us, or different scoring models to determine how you score.
