NARRATIVE

AUTHOR

MALLERY, DALLAS (63735)

DATE/TIME

09/06/2025

SUBJECT

NARRATIVE

On Saturday, 09/06/2025 at 1119 hours, I was dispatched to 1535 SE Maple St (Hillsboro, OR, 97123) for the report of an incomplete 911 call. Dispatch notes stated a male dragged a female out of a car then started to chase her. Additional notes stated the reporting party couldn't breathe then screaming sounds in the background. The male was described as an African American in his 40s, medium build, wearing a Seahawks jersey. The female was described as a juvenile African American, 14-15 years old, thin build, wearing a black shirt, and red and black pajama pants.

When I arrived on scene I observed the female subject, Al-Mira Davis, sitting on a curb near the entrance to the apartment complex. The male subject, Alquan Davis, was standing near his vehicle in the parking lot. Both Al-Mira and Alquan matched the description above as the subjects who were involved in the incident.

I spoke with Alquan about the incident, the following is a summary of his statements. Refer to my bodycam for further details.

Alquan began the conversation by describing some of his injuries. He described himself as "physically not being able to do shit". Alquan was extremely sweaty as we spoke to him. Al-Mira had taken his keys and she was mad because he had taken all of her stuff. Alquan then called his lawyer during our conversation. Alquan told me the argument started because he had gotten a phone call from a friend about him returning a wallet. He claimed Al-Mira knew he was about to leave. Alquan took Al-Mira's VR headset and her laptop so she was restricted from playing game accessing the internet. Al-Mira had cussed at Alquan as she was upset over him not explaining himself for taking away her stuff. He described the cussing as disrespect. Al-Mira began to stand by the door so he started to try and record. Alquan left the apartment to get away from the situation but Al-Mira ran down and started to get into the backseat of his vehicle from the drivers side. Alquan tried to push Al-Mira out of the vehicle from the opposite side while telling her to get out of his vehicle. Alquan told Al-Mira to go back upstairs so he could leave and described Al-Mira as the one causing this. Al-Mira was preventing him from being able to leave as she was standing in front of the vehicle. He continued to tell Al-Mira to go upstairs so he could leave. Alquan continued to describe him trying to leave to return a wallet to his friend that was in the vehicle. Alquan continued to try and push her out of the car and described people seeing him push her out of the car then said "not really" and described other people seeing Al-Mira running. He described not putting his hands on her to hurt her but to push her out of the vehicle. Al-Mira ended up grabbing his phone then started to run towards SE Maple St. When Alquan caught up to her he pulled her by the back of her shirt then wrapped his arms around her. Al-Mira tried to keep the phone away but Alquan was able to pull it out of her hands. Throughout the conversation Alquan continued to tell us he was currently on trial for Criminal Mistreatment 1 and he cant put his hands on her. Towards the end of the conversation he described Al-Mira as not abiding by the rules, and causing the same scene as last time.

Officer Henderson spoke to the female juvenile, Al-Mira Davis, who was sitting on the curb near the entrance to Amberwood Apartments. Below is information that was relayed to me by

DHS RELEASE
CONFIDENTIAL

Officer Henderson. See his report for further information.

Officer Henderson walked to the female and asked what was going on. The female, who was crying and hyperventilating, said "It's my dad", and "He punched me in my arm" and "He went like this" (Describing being choked with hands), and said something to the effect of "He choked me in the corner" She then told Officer Henderson that he was slamming her into the car. She tried to tell him to get off, and when he pushed her, he told her that "No one was going to believe you".

Officer Henderson later asked Al-Mira what started the argument today. Al-Mira said that her dad was "Antagonizing" her and kept doing it. Al-Mira said that her dad was antagonizing her inside the apartment and said that he knew she would "Blow up". She said that she didn't blow up, but she told him that he knew she would, so he kept doing it. She said that she grabbed his car keys and hit him, but later told me that she "Sat" on his keys. She later described her dad wrapping her up because she was on the couch. He later said to her something to the effect of "I'm about to fucking punch you!". Al-Mira said, "Do it then", and he punched her in the arm and pulled her off the couch. Al-Mira said she had screamed "Ouch" when she was hit. Her dad then told her something to the effect of "You do this all the time, no one's going to believe you". She then said, "Dude, you just fucking punched me in the arm, why did you do that?" and he replied, "Because no one is gonna fucking believe you because your on-suicide watch".

When Al-Mira described where she was punched, she told Officer Henderson that he may not be able to see it because she wasn't sure if it was bruised and that she was "Ashy".

Officer Henderson later asked Al-Mira where she had been choked, to which she told him inside the car. She said that she was lying back and then physically described to Officer Henderson how her father choked her. Al-Mira used her hand to demonstrate this. Al-Mira said that she heard her neck crack when her dad did this, and she could barely breathe. Officer Henderson later asked Al-Mira on a pain scale from zero to ten, zero being no pain at all and ten being the worst pain she had ever felt, where she would rate the pain when she was punched. Al-Mira said "five" out of ten. Officer Henderson did not observe any injuries on Al-Mira but took pictures of where she was described to have been hit and choked.

During Officer Henderson's conversation with Al-Mira, she was extremely emotional, crying and breathing very hard.

Officer Loban spoke to witnesses, who were identified as [REDACTED] [REDACTED]. Below is a summarization of what [REDACTED] told Officer Loban. See his report for further information.

DHS RELEASE

CONFIDENTIAL

██████ told Officer Loban they heard arguing, saw a Black Male described as heavy build, bald, wearing a seahawks jersey, and jeans standing outside of a brown SUV. A door was open on the SUV and saw the male swinging his arm with a fist into the car where a Black female juvenile described as wearing pajamas was sitting. Araceli saw the juvenile female get out of the car and run.

██████ saw the same thing and heard yelling "help me" in the parking lot. They saw the male drag the juvenile female and slam the door on her when she was yelling. The male subject pulled the juvenile females hair, dragged her, and when the juvenile female ran away, the male chased her in his car.

██████ partially videoed the incident. In the video Officer Loban saw what appeared to be a black male in a green/blue jersey swinging his arm in an up and down motion. The male then bends over and possibly picked up something or someone.

I read Alquan his Miranda Rights verbatim from my department issued card. He understood his rights and invoked his rights. I did not ask any further questions about this case.

Officer Henderson and I placed Alquan in handcuffs that were checked for proper fit and double locked. I placed him in the rear seat of my patrol vehicle.

I transported Alquan to Washington County Jail where he was lodged.

Action Recommended:

Case closed by arrest.

Forward to Detective Hahn.

DHS RELEASE

CONFIDENTIAL

On 09/06/2025, at around 1123 hours, I, along with Officer Mallery, Officer Schmidt, Officer Loban, and Officer Lamonica, and Officer Schmidt responded to a report of an "Incomplete 911" call, at the Amberwood Apartments, located at 1605 SE Maple St, in Hillsboro Oregon. I assisted Officer Mallery with this investigation.

I learned through Dispatch that the original reporting party to the incomplete 911 call was crying, and saying that they were on the sidewalk of Maple St. This reporting party was heard yelling "Stop" and "Please Stop" repeatedly. A male's voice was later heard saying that it was his daughter. Call notes later said that they heard a car door slam, and someone say, "I can't breathe".

I later learned that an independent witness was actively reporting this incident to Dispatch. These Call notes stated that a male had dragged a female out of a car and then started chasing her. This person described the male subject as a black male adult, approximately 40 years in age, with a medium build, wearing a Seattle Seahawks jersey. They later described the female subject to be a Black female juvenile, approximately 14-15 years old, with a thin build, wearing a black shirt and black and red "PJ" pants. Dispatch then heard a female say the male was "Choking her out".

Dispatch later advised a second independent witness who was calling in to report this incident. This witness advised Dispatch that there was a female in distress, running away from a vehicle.

Officers later arrived at the scene. I began speaking to the female juvenile who was sitting on the curb near the entrance to Amberwood Apartments. I walked to the female and asked her what was going on. The female, who was crying and hyperventilating, said "It's my dad", and "He punched me in my arm" and "He went like this" (Describing being choked with hands), and said something to the effect of "He choked me in the corner" She then told me that he was slamming her into the car.

I identified the female as Al-Mira Davis (DOB:06/23/2011), Al-Mira told me that she tried to tell her father to get off, and when he pushed her, he told her that "No one was going to believe you".

I later asked Al-Mira what started the argument today. Al-Mira said that her dad was "Antagonizing" her and kept doing it. Al-Mira said that her dad was antagonizing her inside the apartment and said that he knew she would "Blow up". She said that she didn't blow up,

DHS RELEASE

CONFIDENTIAL

but she told him that he knew she would, and that he kept doing it. She initially told me that she then grabbed his car keys and hit him but later told me that she "Sat" on his keys. She later described her dad wrapping her up because she was on the couch. He later said to her something to the effect of "I'm about to fucking punch you!". Al-Mira said, "Do it then", and he punched her in the arm and pulled her off the couch. Al-Mira said she had screamed "Ouch" when she was punched in the arm. Her dad then told her something to the effect of "You do this all the time, no one's going to believe you". She then said, "Dude, you just fucking punched me in the arm, why did you do that?" and he replied, "Because no one is gonna fucking believe you because your on-suicide watch".

When Al-Mira described where she was punched, she told me that I may not be able to see it because she wasn't sure if it was bruised and that she was "Ashy".

I later asked Al-Mira where she had been choked, to which she told me inside the car. She said that she was lying back in the seat, and then she physically described and demonstrated how her father choked her. Al-Mira used both her hands to demonstrate this. Al-Mira said that she heard her neck "Crack" when her dad put his hands around her neck. Al-Mira implied that her neck cracked when her father applied pressure with his hands. I asked Al-Mira if she could breathe when she was being choked, and she replied, "Barely". I asked her how long he was choking her, and she told me, "I don't know, I don't know". When she was being choked, she told him, "Stop, you're hurting me, stop".

I later asked Al-Mira on a pain scale from zero to ten, zero being no pain at all and ten being the worst pain she had ever felt, where she would rate the pain when she was punched. Al-Mira said "Five" out of ten. She then said "Four or five" because she had felt way worse pain before. During my time speaking with Al-Mira, I did not observe any injuries to her. I took pictures where she was described to have been hit and choked and later submitted them as evidence.

During my time speaking with Al-Mira, she was extremely emotional, crying, and breathing very hard. I had to remind her to take deep breaths and to control her breathing.

Al-Mira later told me that she believed her dad had recorded the incident. She told me she believed this because he had set up his phone, and it looked like he was recording. Al-Mira said that she couldn't visibly see the phone recording because her dad's screen had a tinted cover on it. I also do not know where the phone was propped up, as Al-Mira had a hard time describing it to me. She said that he had his phone "Set up right there", but I do not know where she was talking about.

Al-Mira later said her dad keeps telling her to "Just kill herself" and to get it over with. She said that he's told her, "You're just working up the courage to kill yourself". Her father did not tell her this today, but he has said it in the past.

DHS RELEASE

CONFIDENTIAL

On September 6, 2025, at approximately 1118 hours, I responded to an Incomplete 911 call in the area of 1535 SE Maple Street, Hillsboro, OR 97123. Dispatch advised they were receiving multiple calls about a male assaulting a teenage girl who he said was his daughter. Witnesses mentioned the male has assaulted and choked the female while pulling her out of a car.

When I arrived at 1605 SE Maple Street I saw a black female juvenile sitting on the curb hysterically crying and a black male adult with a Marshawn Lynch jersey pacing back and forth in the parking lot a short distance away. I stepped out with the male with Officer Mallery. I immediately noticed he was profusely sweating and he was using a rag to wipe the sweat away. While I noted it was in the upper 60s at the time it was clear he was out of breathe and was physically tired as he continued to sweat while we spoke with him. This would corroborate what witnesses stated about him chasing her and physically assaulting her.

I got his information and identified him as Alquan Davis. While he was talking to Officer Mallery I heard him tell him that at the beginning of the incident she was not letting him leave the apartment so he tried to record but then she let him leave. He again said the same thing to someone he was talking to on the phone.

Due to these statements and my belief evidence of the incident was on the phone the phone was seized as evidence. I later entered the phone into Hillsboro Police Evidence at the West Precinct. I forwarded the evidence information to Detective Anthony Johnson for the seizure warrant he would be applying for.

Later in the call at Alquan's request I gave [REDACTED] Alquan's vehicle and apartment key so he could properly park the car and lock Alquan's apartment.

This ended my involvement.

DHS RELEASE

CONFIDENTIAL

On Saturday, 9/06/2025, I was working a uniformed patrol shift, 0600-1600 hours, equipped with a body worn camera (BWC). On this day, I was acting as a field training officer for Officer Griffen Stevens.

At about 1130 hours, Ofc. Stevens assigned us as cover on an incomplete 911 call at 1535 SE Maple Street. Multiple other officers had been assigned to, and had arrived on scene before us. Upon our arrival, I was asked to assist due to concerns that Alquan Davis assaulted and strangled his 14-year-old daughter, Almira Davis. I learned Alquan had a pending Criminal Mistreatment case with Almira as the victim.

I called WCSO Records, believing there would likely be a release agreement prohibiting Alquan from having contact with Almira. I was sent the release agreement, Court No 25CR18304, from WCSO Records. I reviewed the release agreement, dated 4/09/2025, and read under section 8: "CONTACT WITH VICTIM PER DHS DIRECTIVE. NO CONTACT WITH WITNESSES".

I called DHS and made a mandatory report related to today's incident, DHS screening number 3917970. I was put in touch with on-call DHS caseworker Nicole Bennett and informed her of the investigation, as well as the fact that Almira was being transported to Randall Children's Hospital. Officer Loban followed the ambulance to Randall.

It should be noted that my BWC was activated upon arrival and turned off to talk with investigative steps with other officers. Throughout my time on scene, I activated it when needed and turned it off while talking with officers and/ or DHS.

I took no further action regarding this case.

Action Recommended:

Case closed by arrest. Refer to HPD Detectives.

DHS RELEASE
CONFIDENTIAL

On 9/6/2025 at approximately 1134 hours, I responded to an incomplete 911 at 1535 SE Maple St, Hillsboro, OR 97123. Dispatch stated the reporting party was crying and saying "please stop." Another caller reported seeing a male dragging a female. The male was described as a black male adult, 40's, medium build, wearing a Seahawks football jersey. The female was described as a black female juvenile, 14-15 years old, thin build, wearing a black shirt, and red and black pajama pants.

On arrival, other officers already contacted the male and female involved.

I contacted a witness, identified as [REDACTED]. Araceli told me the following in summary.

[REDACTED] said she heard arguing, and she saw a black male adult, heavy build, bald, wearing a seahawks jersey, jeans standing outside of the brown SUV. [REDACTED] told me she saw a door was open on the SUV, and she saw the male swinging his arm with a fist into the car where a black female juvenile wearing pajamas was sitting. [REDACTED] said she saw the black female juvenile get out of the car and run.

After talking to [REDACTED], I contacted two more witnesses, identified as [REDACTED] and [REDACTED]. They both said they saw the same thing and told me the following in summary.

[REDACTED] said she heard yelling "help me" in the parking lot. They saw the male drag the female, slam the door on her, and the female yelling that he was slamming the door on her. They also saw the male pulling her hair, dragging her, and when the female ran away, the male chased her in his car.

[REDACTED] videoed the incident partially. In the video it depicted what appeared to be a black male in a green/blue jersey swinging his arm up and down motion, and then you can see the male bend over and possibly pick up something or someone. [REDACTED] sent me a copy of the video which I later uploaded to Hillsboro Police Evidence.

I followed AMR transporting the female juvenile, Almira Davis, to Randall's Children Hospital.

At the hospital, I requested a strangulation kit to the nurse. Once DHS arrived, I told them the strangulation kit and CARES request.

I didn't see any visible injuries on Almira. Almira didn't want me to take photos of her.

DHS RELEASE
CONFIDENTIAL

I searched Almira's mother, Ashle Penn, in the law enforcement database and saw she had a felony warrant for failure to appear on charges of theft in the first degree and unlawful possession of methamphetamine. I told the DHS worker about the finding and she was already aware.

I left Almira with the DHS worker at Randall's.

No further action taken. See other officers reports for further details.

Action Recommended:

SCREENING REPORT NARRATIVE

Extent of Alleged Abuse:

Reporter contacted the hotline with concerns for 14-year Almira Davis. Reporter stated that Almira's father Alquan Davis is being arrested for criminal mistreatment 1st degree and strangulation to Almira. Mr. Davis is being transported to the Washington County Jail. Reporter stated Almira is currently being looked at by medics who are determining if she needs to go to the hospital.

Reporter stated that Hillsboro Police are requesting ODHS assistance as Mr. Davis is being arrested and Almira stated that there is no one in the home to care for her.

Circumstances of Alleged Abuse:

Reporter learned on 9/06/25 mid-morning Alquan started "chipping away" and antagonizing his daughter Almira. Reporter believes this all started because of a tv. Reporter stated Almira walked out of the apartment to step away from her dad to give them each some space to "cool off."

Alquan followed Almira out into the parking lot of their apartment complex. Alquan was yelling at Almira and started chasing after her. Almira called 911 asking for help. Dispatch could hear Almira telling Alquan to stop that he is hurting her, Dispatch could hear Alquan yelling at Almira, then multiple 911 calls came into dispatch. One caller stated that an adult male is punching a female juvenile in the backseat of a car, another caller reported an adult male is dragging female juvenile out of the car, then another caller stated adult male is strangling juvenile female on the ground by the backdoor of a car. Reporter stated with the multiple calls that came in dispatchers could hear different things, one heard Almira say she "can't breathe" another could hear Alquan yelling at Almira, another initially heard Almira telling Alquan to leave her alone.

Reporter stated law enforcement is still on scene and investigating the incident. Reporter stated it is unknown how Almira got into the backseat of the car.

THIS FORM IS AVAILABLE IN ALTERNATIVE FORMAT UPON REQUEST

DHS RELEASE
CONFIDENTIAL

Reporter stated that they do know that Alquan was seen punching Almira and then started strangling her when she was on the ground. Reporter stated there is video footage from different angles that law enforcement is reviewing.

Reporter stated that Alquan is being arrested for criminal mistreatment and strangulation. Reporter stated Alquan was arrested a few months ago for criminal mistreatment for assaulting Almira. Reporter stated that there was a no contact order between Alquan and Almira but that was recently lifted, and Almira is back in the home. Then Alquan assaulted Almira again today.

Reporter learned as medics were evaluating Almira, she stated that she does not have anyone to care for her once her dad goes to jail. Reporter stated they are aware that ODHS is assessing allegations of physical abuse and that the family has an ODHS caseworker. Reporter stated they would like the assistance of ODHS to plan for Almira today.

12:23pm This screener contacted the Washington County ODHS after-hours phone and spoke with caseworker Nicole Bennett. Nicole was provided the reporter's contact information and a summary of what happened.

Nicole messaged this screener at 12:43pm stating that Almira is being transported to Randall's Children's Hospital via ambulance. Nicole noted that Almira's sister [REDACTED] lives with their mother in Portland and did not witness anything that happened today.

Child Vulnerabilities:

Almira is diagnosed with ADHD and depression.

CHILD WELFARE HISTORY

Child Welfare History Summary:

7/31/25-Pending for physical abuse to Almira by her mother Ashle Penn. Ashle allegedly hit Almira with a belt. Almira reportedly has marks from the belt.

History under Ashle Penn 798764-

3/04/25-The allegation of physical abuse of the child, Almira Davis, by father, Alquan Davis, is unfounded. Almira reported that she was being disrespectful to her dad while they were driving to school and he hit her mouth with the back of his hand. She did not have any injury or lasting pain. Alquan Davis, father, provided the same explanation. Poynter Middle School principal, [REDACTED], did not observe any injuries to Almira's face. Hillsboro Police Department report number 53 2025-4730 dated 3/10/2025 indicates that father, Alquan, was driving Almira to school and she was just being disrespectful. He reached back with an open hand and swatted her cheek for cursing at him. She had no injuries. Conclusion: information only; refer to DA for review.

3/22/24- founded for physical abuse to Al-Mira by her father Alquan Davis. Al-Mira made disclosures that her father Al-Quan hit her with a belt across her legs to the point of injury. Al-Quan acknowledged hitting Al-Mira with a belt but reported hitting her 5-7 times and Al-Mira indicated he hit her 15-17 times. Al-Mira was able to provide pictures of her legs following this incident. In these photos, there are multiple striations across her shins that are consistent with markings from a belt. Al-Mira reported that it had hurt to walk following this incident and she reported ongoing bruising that was not visible due to the color of her skin but was still painful to the touch days after the incident. Al-Quan did not deny this incident occurring to ODHS, although he repeatedly denied physical discipline to LEA. In speaking with the school, they reported ongoing concerns for Al-Quan's temper and the disclosures that Al-Mira will make. There is a significant pattern of reports with concerns for physical abuse by Al-Quan and he has been educated by the agency about his use of physical discipline crossing the line into abuse. This dispositional finding is supported by the children's disclosures which were corroborated by photographs of the injuries and statements of concern by the child's mother.

EXTREMELY URGENT Ref # 3451 – 549

This is a request for **Any and All Medical Records** for the following person needed for Child Protective Services Abuse Investigation & Court Hearings.

Name: **Amira Davis**

DOB: **06/23/2011**

Please send records via email if possible, or fax or mail to my attention. If you have any questions, please contact me at 503-801-6085

Thank You,

ORS 419B.050 Authority of health care provider to disclose information: immunity from liability.

- 1. Upon notice by a law enforcement agency, the Department of Human Services, a member agency of a county multidisciplinary child abuse team or a member of a county multidisciplinary team that a child abuse investigation is being conducted under ORS 419B.020, a health care provider must permit the law enforcement agency, the department, the member agency of a multidisciplinary child abuse team to inspect and copy medical records, including, but not limited to, prenatal and birth records, of the child involved in the investigation without the consent of the child, or the parent or guardian of the child. A health care provider who in good faith disclosed medical records under this section is not civilly or criminally liable for the disclosure.**

(2) As used in this section, "health care provider" has the meaning given that term in ORS 192.519 [1997 c.873 §27; 1999 c.537 §3; 2001 c.104 §150; 2005 c.562 §27]

SBAR from Dr. Roach at the beginning of my shift, please see Dr. Sales' initial note for more details.

14 y.o. female with history of MDD, GAD, ADHD, bipolar disorder, presents after altercation with and physical assault (strangulation) by father, also with SI and a plan to stab herself.

Patient in altercation with dad, grabbed dad's phone and called 911. Police arrived and arrested dad, who is now in jail.

ODHS has temporary protective custody of patient now. Court scheduled for Monday 9/8/25. Mother cannot speak with patient if she calls.

LCSW attempted to safety plan last night but unable to do so.

Labs/Imaging:

U Drug Panel negative.

U HCG negative.

To Do:

- f/u dispo plan; NO contact with mother

ED Course after signout:

ED Course as of 09/07/25 1437

Sat Sep 06, 2025

2209 Sign out accepted from Dr. Sales at 2200. Briefly, patient with SI with plan to stab herself with a knife. Patient was also physical assaulted by father. Father was arrested and is currently in jail. She was seen by CARES. Dad is her legal guardian, and thus DHS now has protective custody. Patient should NOT be discharged to father unless DHS approves. She was seen by LCSW and was unable to safety plan. Plan for repeat assessment by LCSW in the AM. [BR]

Skin: No rash

Psychiatric: Age-appropriate behavior

MDM Summary (Problems Addressed, Differential Diagnosis, and Plan):

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

ED Provider Note (continued)

Almira Davis is a 14 y.o. female with history of depression and suicidal ideation who presents to ED after reported physical assault from biological father.

Patient presents to ED with no report of pain/tenderness to neck. No external findings of injury. Talking with normal phonation. No indication for cervical bony or vascular imaging.

Due to history of depression and current endorsement of suicidal ideation, CSW met with patient and patient unable to engage in safety planning. Patient specifically reports plan to kill herself with a knife if she were to leave the ED. Pt wanting to return to father's care (who is in custody).

SANE RN presented to ED to facilitate strangulation kit. Patient refuses to participate in this exam, hiding her neck, and over extensive conversation with SANE RN she continues to decline participation in this forensic evaluation.

DHS reports that pt into protective custody at this time. Caseworker: Nicole Bennett 503.510.8857

CARES NW social work presented to ED and intake completed

As pt continues to endorse suicidal ideation with a plan and currently no safe discharge options, plan for patient to board in ED overnight pending repeat social work evaluation in the morning. As patient is in protective custody by DHS, their caseworker will remain in ED to supervise patient.

2200: SBAR to Dr. Roach to continue monitoring overnight

Results and Interventions:

I reviewed the relevant lab and imaging studies to help with my assessment and plan for this patient.

Imaging and serologic testing **independently interpreted contemporaneously by me:**

Imaging Results

None

PROCEDURES:

Procedures

ED progress:

I discussed the management of patient with the following consultants or providers: CARES NW social work, DHS, police

Imaging and diagnostic testing considered but not ordered: Xray--clinical presentation low-risk for fracture

Observation Admission Note

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

ED Provider Note (continued)

PATIENT IS PLACED IN OBSERVATION STATUS AT: 1900 on 9/8/25

REASON FOR OBSERVATION STATUS:

Psychiatric Emergency: Needs additional evaluation and treatment of a mental health illness. Patient is currently not safe for discharge, and may benefit from an inpatient psychiatric admission. Patient to be monitored for escalation in mental health symptoms (e.g. suicide attempt, worsening agitation or disorganization). Will manage medically as appropriate, and re-evaluate to determine if the patient's mental health status improves and patient is safe for discharge, or will ultimately require admission. Clinical social work consultation, psychiatry consultation, serial exams, completion of medical clearance and psychiatric evaluation, discharge to safe environment in the community, bed search for transfer to psychiatric facility or admission, and medication management as needed.

Diagnosis and Disposition:

Assault
Suicidal Ideation

Condition: good
Disposition: pending

12:45 PM

Almira Davis is a 14 y.o. female admitted for SI after physical assault who was found to be at High risk for suicidality based on the Columbia-Suicide Severity Rating Scale (C-SSRS). The patient was placed on full suicide precautions including 1:1 observation, and screening of belongings with room safety checks.

At interview now, Almira Davis acknowledged they are safe from hurting themselves while in this facility and they will notify staff if suicidal thoughts or urges return while they are in this facility.

Based upon this discussion, it is determined that the patient remains safe while in this facility. It is determined 1:1 supervision shall be discontinued, and other suicide risk safety precautions are to be decreased subject to subsequent disclosure/screening and/or clinical interview. Given these variables the patient's category of suicide risk is changed to Moderate while at this facility. As a result of this screening, the patient will need to be assessed by a behavioral health clinician prior to discharge from this facility.

ED Notes (continued)

Admission time: 1335
Date of service: 9/7/2025

Reason for CED visit/RCH admit: physical assault by father of patient (FOP) and endorsed SI

Current Clinical Impression

1030: SW met with pt 1:1 for re-assessment. Pt was calm, appropriate, denied active SI/HI/AH/VH. Pt described feeling numb after yesterday's events. Pt described frustration that she remains at RCH and is not allowed to return to the care of mother of patient (MOP) at this time. SW provided empathetic listening.

SW discussed potential plans for uncle to be reviewed, remain at RCH, or go to a resource parent. Pt's preference was to go to uncle's due to not feeling safe being in a stranger's house (resource parent).

Pt requested to call MOP. SW discussed ODHS set guidelines including no contact with MOP until after court hearing tomorrow at 9/8/25 between 1300-1400. Pt was agreeable.

1200: SW left voicemail for CCS requesting call back

1212: ODHS confirmed that uncle is confirmed an appropriate temporary guardian.

1213: SW spoke with CCS on call, Meredith 503-943-4993 who confirmed pt is established with services. SW discussed complex situation and advocated for CCS to support in safety planning if being D/C to uncle. CCS provided colleague contact to organize meeting with pt.
Nathaniel 971-865-1035

1420: SW spoke with CCS, Nathaniel 971-865-1035 who confirmed he is available to support in safety planning at uncle's home at 1530.

1430: SW and ODHS caseworker met with pt to discuss plan to D/C to the care of uncle. Pt asked appropriate questions and advocated to attend court hearing tomorrow. Pt is agreeable to further safety plan with CCS once she is at uncle's house. Pt was provided with limitations set by ODHS including no contact with MOP or sister who resides with MOP.

Mental status

Suicidal ideation: Pt denies

Homicidal ideation: Pt denies

Auditory Hallucinations: Not clinically indicated Pt does not appear to be responding to internal stimuli

Visual Hallucinations: Not clinically indicated Pt does not appear to be responding to internal stimuli

Interview

Appearance: Pt is a 14 y.o. female. Pt appears as stated age. Pt presents as appropriately groomed, clean, and wearing scrubs

Behaviors: Pt is currently attentive, cooperative, calm, laying on bed.

Eye contact: Appropriate

Oriented: Person, place, time and situation

Mood: "tired"

Affect: appropriate

Speech: Normal rate, volume and tone

Thought process: normal, concrete, linear, coherent

Thought content: denies SI/HI/AH/VH

Insight: Limited

Incoming phone call from mom by way of hospital operator. Upon answering the phone, mom immediately began yelling at this RN that "I need to talk to my daughter now. I know she is there and your stupid ass operator keeps telling me she's not and hanging up on me." I calmly asked mom to refrain from using inappropriate language. Mom responded with yelling "I'm tired of y'all telling me she's not there because I talked to her yesterday." Explained that we would need to call her back as patient is still being assessed. Mom then began screaming "stop lying to me and let me speak to her now. This shit is ridiculous." This RN hung up the phone since mom was being verbally abusive and yelling. SW and DHS aware.

RN able to contact DHS worker in ED after speaking with her supervisor. Due to too many unknown risks DHS has stated they are going to maintain protective custody. Mom planning to send relative here to wait with pt, and stated that she would be in after work. Mom not answering phone despite multiple attempts of child trying to call her. Child updated that we are unable to get her belongings back from PD due to it being in dad's property (car). Dinner given to child, SW back at bedside to update pt on plan of care. DHS provided SW with notice that they have protective custody for chart documentation.

LEGACY EMANUEL

Almira Davis

Preferred name: Almira

MRN: 7001510862

Social Work Brief Intervention

1718: SW spoke with on call ODHS caseworker Nicole. At this time, ODHS is taking **temporary custody** due to ODHS unable to get in contact with mother of patient (MOP) despite numerous phone calls, text messages, and visit to home. attempts at the home. ODHS placed a protective order after the physical assault by father of patient (FOP). If MOP is reached while pt remains at RCH, MOP is able to have custody transferred to make medical decisions. Please contact on call caseworker, Nicole for further collaboration at this time.

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

ED Notes (continued)

Assigned ODHS caseworker: Ashley Crafton 424-242-3374

ODHS on call weekend caseworker: Nicole 503-510-8857

ODHS on call weekend caseworker: Soumpholphakdy Wiengkhone "Donnie" 971-701-4044

Father of patient (FOP) is being charged with criminal mistreatment 1st degree and strangulation.

Police officer Patrick Loban 971-424-8388 was present at RCH

1650: ODHS reports MOP returned call and does not have transportation. ODHS colleague was planning on driving MOP to RCH ED.

1830: SW spoke with ODHS caseworker, Nicole and RN. Due to MOP not engaging appropriately with ODHS, ODHS will continue having protective custody. MOP reported planning on having an uncle come to RCH and requested "immediately release of protective custody." ODHS caseworker plans to remain overnight at RCH incase uncle or MOP arrives. At this time, communication and safety planning should be done with ODHS.

1905: RN informed writer that 2 uncles were at RCH lobby. BHT reports MOP called on uncle's phone and was yelling at pt, blaming pt for FOP's situation.

1919: SW spoke with 2 ODHS caseworkers, Nicole and Donnie and RN. Pt's 2 maternal great uncles are currently at bedside. Per uncle Eric, he only sees pt a couple times a year. Eric reports pt "flip flops" back and forth between parents depending on who she is mad at. Uncles were informed of pt presenting at RCH from another out of state relative.

If MOP presents to RCH, ODHS continues to have protective custody. Court is scheduled for 9/8/25 at 1400.

Per ODHS, if mother of patient (MOP) calls, she is not allowed to talk to pt.

Caring Contact: ODHS caseworker - Ashley Crafton 424-242-3374 or ODHS on call caseworker Nicole 503-510-8857 **Relationship to pt:** DHS

If patient is boarding, plan for parent supervision: ODHS remains at bedside

Child Welfare involvement: Yes, ODHS was actively involved prior to physical altercation today. **Caseworker name/number:** Ashley Crafton 424-242-3374

Parents/Primary guardian: Ashley Crafton 424-242-3374 **Relationship:** DHS

Means of arrival: EMS

Patient accompanied by: Law enforcement

PATIENT ASSESSMENT

Social history

Lives with: bio dad

Family Dynamics/Family Engagement: Pt reports parents were never married and separated in 2012. Pt was previously living with mother of patient (MOP) from 2012-2017 after allegations of DV by MOP's ex. FOP obtained full custody of pt 2017. Sometime between 2021-2023, pt returned to reside with MOP and got into a verbal altercation. Pt has resided with FOP since.

FOP has full custody of pt's sister (age 15), but sister resides with MOP. Pt describes "very strong relationship" with FOP with 1 previous physical altercation toward pt by FOP 1-2 years ago.

School: Pt attends Hill High School and is in the 9th grade. Pt does not have an IEP.

Current situation/reason for visit:

Pt seen in RCH 13 for assessment due to physical assault, endorsed SI with plan. Pt was BIB EMS. Pt has 1 previous ED visits for mental health presenting concerns. Pt has history of MDD, GAD, ADHD, and bipolar. Pt is currently connected to OP services and does not have psychiatry. Pt does not take any psychotropic medications. Pt does have a history of self harming bx, 2 reported suicide attempts, and no inpatient admissions.

Please see SW note at 1917 for additional collateral.

Per ODHS, if mother of patient (MOP) calls, she is not allowed to talk to pt.

SW introduced self to pt and explain role in CED. Pt was 4x oriented, endorsed SI with a plan to strangle self, pt denied HI/AH/VH. Pt described precipitating events, pt reports "bickering" at home with FOP over the TV. Pt described FOP getting frustrated and pt "instigating" him by following him around. FOP attempted to leave the house to see his girlfriend and did not want pt to get into the car. When pt attempted to get in, pt was "slammed" between the door multiple times. Pt recalls telling FOP, he was hurting her. Pt grabbed FOP's phone, left and called 911. Pt reports FOP followed her in his car while she ran away to gt space. Pt reports crying while talking to 911 operator. Once FOP caught up with her, he grabbed the phone and attempted to tell operator what happened. At this time LEA arrived to the scene. Pt describes hearing FOP state "so I am getting arrested." Pt describes FOP as a good guy, and shouldn't have gotten arrested because we were "antagonizing" each other.

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

ED Notes (continued)

Pt described first struggling with mental health when parents broke up. Pt reports she is currently involved in mental health services but could not provide me with therapist name or frequency. Pt was previously taking medication for ADHD but reports stopped due to it making her sleepy.

Pt requested to return back to care with FOP. This writer explained current situation, including ODHS unable to get ahold of MOP. Pt disclosed if she was D/C to MOP, she would strangle herself. Pt reports having a suicide attempt a couple days ago. Pt grabbed a knife and went to her room to stab self. Pt reports FOP intervened and hid the knives.

1504: SW spoke with ODHS caseworker, Nicole who reports attempting to call MOP multiple times. ODHS left several voicemails and text messages requesting call back.

At this time, pt is not able to contract for safety. Pt is endorsing SI with a plan to strangle self. Pt currently is in protective custody of ODHS after physical altercation by father of patient (FOP) resulting in FOP's arrest.

Substance use: Pt denies drug use

Frequency: Never tried

Hx of self-harm: Yes - Type: cutting

Frequency: Last occurred a couple days ago. Pt cuts on wrists to feel something other than sadness. Pt reports frequency of 1-2x/week. Pt covers up wrist scars with homemade crochet arm covers.

Hx of legal involvement: No

Hx of trauma: Yes

Hx of prior suicide attempts: Yes, pt reports 3x - most recent attempt was on FOP's birthday. Pt could not recall the trigger.

2x - attempt by strangulation, pt denied LOC

Hx of prior treatment/hospitalizations: No

Current/past property damage: No

Current/past animal abuse: No

Current/past fire setting: No

History of aggression, and if yes, who is pt aggressive towards: No

Elopement risk: Yes

Current medical concerns or contagious illnesses: No

History of disordered eating: No

Family Mental Health History:

Mother's side: drug/alcohol addiction and hx of domestic violence

Father's side: ADHD and hx of domestic violence

Siblings: did not assess

Lethal means assessment

Are the medications in the home locked up? Did not assess

Discussed locking of meds with family? Did not assess

Are there any firearms in the home? Did not assess

Are firearms locked/stored properly? Did not assess

Current providers/family supports:

Therapist: Unknown

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

ED Notes (continued)

Columbia screening results: (Low/Moderate/High) - Columbia Suicide Severity Rating Scale (Screener/Recent Self-Report)

1. Wish to be Dead (Past 1 Month): Yes
 2. Non-Specific Active Suicidal Thoughts (Past 1 Month): Yes
 3. Active Suicidal Ideation with any Methods (Not Plan) Without Intent to Act (Past 1 Month): No
 4. Active Suicidal Ideation with Some Intent to Act, Without Specific Plan (Past 1 Month): No
 5. Active Suicidal Ideation with Specific Plan and Intent (Past 1 Month): Yes
 6. Suicidal Behavior (Lifetime): Yes
 6. Suicidal Behavior (3 Months): Yes
 6. Suicidal Behavior (Description): suicide attempt the other day using a knife
- Calculated C-SSRS Risk Score (Lifetime/Recent): High Risk

Impression of initial suicide risk may change after behavioral health assessment.

Is there a change to in hospital suicide risk precautions after assessment? No

SUICIDE RISK ASSESSMENT

Suicidal behavior: See current situation

Suicidal Ideation: Pt endorses
SI with method and high intent

Suicidal Plan: Pt endorses
Plan with some specific and/or realistic details

Homicidal ideation: Pt denies

Auditory Hallucinations: Not clinically indicated; Pt does not appear to be responding to internal stimuli

Visual Hallucinations: Not clinically indicated; Pt does not appear to be responding to internal stimuli

Sleep: difficulty falling asleep, sleeping less

Appetite: No Change

Currently combative: No

Threats made to staff: No

MENTAL STATUS EXAM:

General: Alert, in mild distress and oriented x4

Appearance: Appears stated age and appropriately groomed

Behavior: Good eye contact and cooperative

Motor Activity: Normal gait/ muscle tone

Speech: Soft spoken

Mood: Dysthymic and scared/ anxious

Affect: Appropriate

Thought Process: Goal-directed

Associations: Normal

Thought Content: Suicidal ideation

Sensorium and Cognition: Appears intact in regards to memory, cognition, attention/concentration, fund of knowledge and language skills

Insight: Poor

Judgment: Poor

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

ED Notes (continued)

Based on current evaluation and assessment - estimated risk for suicide:

High Risk of harm to self or others and should be considered for more intensive psychiatric/mental health treatment environments

Clinical impression

Pt should be further assessed for level of care recommendation. It is unclear if pt's endorsed SI is influenced by today's events of physical altercation with FOP resulting in his arrest.

Interventions

Met with patient, DHS worker, maternal uncles and discussed reason for visit
Discussed current situation with MD and RN
Discussed pt with DHS worker
Paperwork scanned into chart

Long term care plan

Engage in outpatient counseling
Engage in family therapy
Follow up with psychiatrist
Attend school on a regular basis
Participate in activities that promote positive mental health
Engage in a support group
Build and maintain peer supports
Continue to utilize safety plan

Inpatient program referrals completed

No inpatient referrals required at this time

CCS referral

No, Pt is too acute to discharge to the community at this time. Needs higher level of care than outpatient ICTS/crisis stabilization

Safety plan

Patient is unable safety plan at this time.
Pending further assessment.

Care Plan

SW will continue to assess
SW will continue to follow
Pending

Follow up appointment

No - Reason: Deferred until discharge.

Discussed and agreed on disposition plan with MD: Yes

MULTIDISCIPLINARY
PROGRESS RECORD

Date	Time	Discipline/ Focus
9.6.25	1603	Arrived to see pt at ED 13 and pt
		moved to ED 20 for SI. Upon introducing
		myself to pt. pt stated "I don't want
		to do this, is it mandatory?" RN
		explained I would follow up with MD, Justin
		Sales since CPS and P.D. brought pt
		to ED. Nicole Bennett from Child
		Welfare walked in the pt room
		telling pt. the exam is important
		and will not get her dad in trouble.
		RN stepped out to speak with MD
		about pt. not wanting exam. Dr. Sales
		reaching out to Care's NW before
		ability to answer. We don't want
		to force child. Child is upset as
		she was just told she cannot
		return home. Father is in jail. Pt. is
		14 years old. Incident took place in Hillsboro,
		Case # 25-17657. CPS report #3917970,
		overall Case ID #1007213. RN opened an
		unusable SKIT to show pt, reduce fears
		and ensure pt. understand what she is
		declining. Pt. still declined. RN asked if pt.
		knew what was keeping her from doing
		an exam and pt. said she wanted her
		mother present. Mom lives in Springfield (Ashle Penn),
		Nicole Bennett reaching out to pt. mother
		and Dr. Sales said mother has been
		unreachable. Pt said she normally calls her
		mom via her laptop, laptop in father's car..
	1651	Dr Sales said Care's NW has not
		returned call.

Lives with mother and her partner ██████ (last name unknown)

██████ (last name unknown)
Step father/lives with mom

Language and cultural considerations:

English

Phone Numbers:

Presenting Concern:

14 y.o. Almira Davis presented to Randall Children's Emergency Department (RCH CED) for concerns of physical abuse.

The following information was provided by caseworker, Nicole Bennett:

Today, 9/6/25, Almira was assaulted by her father. Mid morning Almira, along with her dad and other people were at

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

Clinical Notes (continued)

the house and and there was an argument between Almira and her father. Almira went to her dad's care to get her laptop and dad dragged her out of the car. There are witnesses and a video of dad either punching or elbowing Almira while taking her out of the car and of dad strangling her. In the video Almira can be heard saying she couldn't breath. 911 was called and Almira was transported by EMS to RCH. Dad was arrested on Criminal Mistreatment 1 and strangulation charges.

Person(s) of Concern - Name and Relationship:

Alquan Davis
Father

Location of Occurrence:

Family home

Date/Time of Incident:

9/6/25
Mid morning

Care Providers/Visitation/Marriage or Relationship History:

Caseworker did not have information regarding parents relationship. Mom is with a man named [REDACTED]. CW thinks Almira is attending Hillsboro HS. Dad has custody of Almira and her sister. Almira has regular visitation with mom and sibling lives with mom currently.

Parent/Legal Guardian Employment:

CW had not information regarding parent's employment

Current Medical Condition:

Unknown

Past Medical History/previous injuries, hospitalizations:

Unknown

Methods of Discipline:

Both parents use physical discipline, including with belts, punching and hitting. Both parents have long history with ODHS for physical discipline

Development/Mental Health/Special Needs:

CW did not know if Almira has a current mental health diagnosis. Almira was evaluated by psych social worker, Leah and Almira is currently suicidal with a plan. Almira has also stated that she will act on her plan if she is returned to mom.

Daily Schedule (sleep environment, routine, etc.):

Unknown

Exposure to Drugs/ETOH:

Mom has been known to use meth in the past. Unsure if Almira has been exposed. No concerns at dad's house for exposure

Exposure to Domestic Violence:

Unknown if there was DV between mom and dad.

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

Clinical Notes (continued)

In 2020 Almira and her sibling were removed from her mother's care due to DV by [REDACTED].

Family Mental Health History:

Unknown

Previous or current CPS/LEA involvement:

There is currently a case open under dad and mom. CW didn't have specific information, but for mom is was for use of a belt on Almira. CW said it would be unfounded because there were no injuries. Dad's case is also open for physical abuse, but not specific information

Current family stressors:

DHS involvement

Other Pertinent Information:

ODHS reported there is long history of physical abuse to Almira. Dad has been charged multiple times for the abuse, including today. ODHS reported that parents do not cooperate with ODHS or LEA during assessments.

Initially when speaking with CW the plan was to get a hold of mom and have her take custody of Almira and take her home. I explained to CW that psych social worker, Leah reported that Almira had a plan for suicide and said she would carry it out if returned to her mother. CW said that was the plan.

When checking in with CW later the plan changed and ODHS had taken custody of Almira and would not have mom take custody of her, concerned that mom would take Almira out of the hospital AMA.

Community Contacts:

DHS Caseworker name and phone number

Caseworker who came to hospital is:

Nicole Bennett
503.510.8857

Current CPS CW is:

Ashley Crafton
971.304.685

Medical Triage at ED:

Almira refused SANE exam and photos.

Due to suicidal concerns Almira was to stay in the ED to be further evaluated on 9/7/25

Photos taken/Uploaded?

NO

Plan:

ODHS has taken protective custody of Almira. Almira will remain in ED for further evaluation.

Components

Component	Value	Reference Range	Flag	Lab
U HCG Qual POCT	<25 mIU/mL	—	—	LEH POCT

Comment:

An hCG result <25 mIU/mL in urine does NOT rule out pregnancy. A patient can still have hCG in the urine and give a <25 mIU/mL result if she has recently become pregnant. Interpret result with caution. If there is any question, order a quantitative hCG in serum (HCGQ) in 48 hours or more. A result $\geq$ 25 mIU/mL in urine is considered positive for hCG

night. Pt aware she will be staying overnight and is unable to make more phone calls until reassessment by SW in the am. - HR at 09/06/25 2046

Row Name	09/06/25 18:36:07	09/06/25 1826	09/06/25 1824	09/06/25 1739	09/06/25 1707
----------	-------------------	---------------	---------------	---------------	---------------

Patient Observations

Patient Observations	Pt tearful, asking to call her mom. She is aware DHS is trying to talk to mom on the phone. Unable to locate DHS worker at this time. Pt and RN tried calling mom at a few different numbers that pt believes is her number, no answer. Discussed with SW earlier that if she is able to engage in assessments she can have TV privileges periodically. TV remote given to her and phone at bedside for pt to use to try calling mom again in a bit. Per DHS worker when she spoke with mom earlier, mom was unwilling to engage with them. DHS deciding whether pt needs to be kept in protective custody or not as she needs SW reassessment in am. -HR at 09/06/25 1840	RN out of room -CF at 09/06/25 1826	Call light/tv remote given. Pt asking to go home. RN at BS -CF at 09/06/25 1826	Mom called, per DHS they have been trying to get ahold of her - DHS worker on phone with mom currently on A-side -HR at 09/06/25 1739	PT appears to be sleeping in bed -AB at 09/06/25 1707

Patient Instructions

During your visit today you met with our Children's Emergency Department physicians and social worker to address the following concerns: suicidal thoughts after physical assault

Recommendations

Catholic Community Services (CCS) met with you during your stay at the hospital; please continue to work with them for your child's mental health needs.

Please continue to utilize your safety plan.

Your child is cleared to attend school.

Please contact your local crisis line, if needed, for help and safety. Your crisis line phone number is: Multnomah County - 503-988-4888

Please provide high supervision with Almira

Safety Plan

The following safety plan was discussed with: Patient, DHS

Safety plan in place with current treatment team.

Plan to lock up all medications.

Plan to lock up all guns and other lethal weapons.

Plan to lock up sharps.

Safety sweep of home will be completed.

Patient will call the following people for support: CCS Crisis 971-804-4397

A follow up therapy appointment will be scheduled as soon as possible.

Please call 911 or take patient to the nearest Emergency Department if mental health concerns worsen.

If you need urgent mental health support, please call or text 9-8-8, or go online to 988lifeline.org
You can also get help by calling the mental health crisis line Multnomah County - 503-988-4888
Crisis lines are available to you 24 hours a day. Please continue to work closely with your outpatient providers and follow up with your primary care provider (PCP) if asked to do so.

Psychiatric Medication Resources for PCP

There are services available to support your primary care provider (PCP) with prescribing psychiatric medication.

- **Oregon - OPAL-K:**

OPAL provides free, same-day, Monday through Friday, child and adult psychiatric phone consultation to primary care providers in Oregon. OPAL is a collaboration between OHSU's Division of Child and Adolescent Psychiatry, Adult Psychiatry, the Oregon Pediatric Society (OPS) and the Oregon Council of Child and Adolescent Psychiatry (OCCAP).

Phone: 1-855-966-7255 (9am-5pm Monday through Friday, excluding major holidays)

Website: www.ohsu.edu/opal

- **Washington - PAL:**

The Partnership Access Line (PAL) supports primary care providers (doctors, nurse practitioners and physician assistants) with questions about mental health care such as diagnostic clarification, medication adjustment or treatment planning. Our child and adolescent psychiatrists are available to consult during business hours.

Phone: 866-599-7257 (Monday through Friday, 8am-5pm)

Website: www.seattlechildrens.org/healthcare-professionals/community-providers/pal/wa-pal

Patient Instructions (continued)

Behavioral Health Crisis

What is a Lay Caregiver?

Oregon laws use the term "lay caregivers" when referring to parents, spouse, family member or an individual who is identified by the patient that will support them after leaving the hospital.

Providers will coordinate with patients and their lay caregiver to develop a plan for after leaving the hospital. A provider does not have to share health information if there is reasonable concern for the patient's safety. If the patient is:

- Younger than 14 years of age, the lay caregiver is a parent or legal guardian of the patient.
- 14 and 18 years of age, the lay caregiver is the patient's parent or legal guardian. If there are clinical indicators or evidence of emancipation the patient may choose a lay caregiver of their choice.
- Over 18 years of age, the patient should be encouraged to select a lay caregiver of their choosing.

Lay caregivers provide support and help lower any possible risk to the individual's safety.

If the patient chooses to identify lay caregivers they will be included in care planning.

- The hospital will ask the patient to sign an approval form.
- Only the minimum information necessary will be shared with the lay caregiver.
- The patient has the ability to cancel the approval at any time.

What is a behavioral health crisis?

A behavioral health crisis is a quick change in an individual's mental or emotional well-being. This change results in the need for immediate medical attention. Without immediate medical attention the individual's mental or physical health could get much worse.

What to expect in the hospital Emergency Department:

If an individual has a behavioral health crisis they will see a provider that understands mental health. The provider will ask questions to better understand the individual's current condition and long-term needs. Questions that may be asked to help understand long-term needs:

- Can the individual care for themselves?
- Is there access to care and services where the individual lives?
- Are there community-based services that the individual could access?

The provider will work with the patient to:

- Often friends and family (lay caregivers) that could support the individual.
- Try to understand the individual's risk of suicide.
- Help make a safety plan with ideas about how to protect the individual from dangers including medications, weapons, alcohol, sharps, chemicals, etc.

Suicide Lifeline: 1-800-273-TALK (8255)

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

Patient Instructions (continued)

What to expect after leaving the hospital

If the individual attempted suicide, or has been thinking about suicide, the hospital will support the individual as they move to the next level of care.

Patients will be contacted within 48 hours of a patient leaving the hospital to check-in and see if there are any issues or continued support that is needed. Depending on the hospital, an individual may be contacted by:

- Hospital employees
- Community-based providers
- Mental health support group
- Suicide prevention hotlines

The hospital will work to schedule a follow-up appointment for the individual within 7-days of leaving the hospital.

Care Coordination and Case Management

Before an individual is released from the hospital following a behavioral health crisis, the hospital will do a number of things to help support them. Depending on the patient's needs this may include:

- Notify the patient's regular care provider
- Refer to a specialty provider
- Refer to community-based resources
- Connect to peer support services
- Connect to crisis support services
- Create and share a plan of care

Oregon Behavioral Health Laws

The Oregon government has passed many laws over the years about the treatment and care of individuals during a mental or behavioral health crisis. This brochure focuses on HB 3090 of 2017 which requires hospitals to adopt, maintain and follow written policies about the release of a patient from the Emergency Department who is experiencing a behavioral health crisis. Other laws include:

- HB 2023 of 2015 related to release requirements for patients hospitalized for mental health treatment
- HB 2948 of 2015 related to allowable disclosure of protected health information
- HB 3378 of 2015 related to general caregiver involvement in discharge planning
- HB 3091 of 2017 related to payer requirements for case management and care coordination

Instructions

Your personalized instructions can be found at the end of this document.

Follow up with Your doctor

What's Next

You currently have no upcoming appointments scheduled.

Your Medication List

You have not been prescribed any medications.

Information on Finding a PCP

We recommend you follow up with a primary care provider. If you do not already have a primary care provider please contact your insurance provider (using the member services number on the back of your insurance card). You can visit the Legacy Doctors & Locations website:

<https://www.legacyhealth.org/doctors-and-locations> to find a provider

who is taking new patients, or you can call a community resource:

- Multnomah County Clinics: 503-938-333
- Coalition of Community Health Clinics: 503-546-4991
- Oregon SafeNet Medical Information and Referral: 800-723-3638

Care after your visit

You should follow up with your regular doctor after your Emergency Room (ER) visit. Let your doctor know about changes in your health and medications. The ER is a place to help provide emergency care but should not replace the ongoing care of your regular doctor.

09/06/2025 - ED in Legacy Randall Children's Emergency Department (continued)

After Visit Summary (continued)

It is common to be discharged from the ER before all test results are final. At times, a test may show abnormal (not normal) results that may need more evaluation, tests, or care. These results may not be related to the reason for your ER visit.

You should share and review your test results with your regular doctor.

Your future care needs

Choosing between a doctor's office, urgent care, or hospital emergency room can be hard when you are sick or hurt.

Not sure where to go for care? Call a nurse help line. If you have insurance, look at your insurance card or web site for the phone number. You can also go online to Legacy's web site to view a symptoms list and recommended place to go for care.

Visit Legacy's web site: <https://www.legacyhealth.org/health-services-and-information/health-resources.aspx>

- Not sure where to go for Urgent Care? Legacy offers fast and convenient urgent care at many locations near you. Urgent Care is a good option for when your doctor's office is closed and you need immediate care. Schedule a visit online: <https://www.legacyhealth.org/urgentcare>
- Is your illness or injury serious? You may need emergency care at a hospital. If you are having chest pain, symptoms of a stroke, or signs of another serious injury or illness call 911.

What if you have medication questions?

Your medication instructions (shown above) are only for your new medications or changes to medications you were taking before this visit. Please contact the doctor who prescribed your medication if you have questions about your other home medications.

Practice medication safety.

Tell your doctor about your new or changed medications.

You should have your medication information with you at all times in case of an emergency

MyHealth Results Information

When lab results, imaging reports and notes are ready, they will be available in MyHealth. This means you may see your results before your care team or provider. Some results are easier to understand, and others may be more confusing. An abnormal result does not always mean a serious problem. All results are reviewed. We will contact you if there are concerns with your results. If you have urgent questions or do not hear from your care team within 3 business days, you may contact them.

Scan (below)

LEGACY HEALTH MRN: 7001510862 Name: ALMIRA DAVIS DOB: 06/23/2011

Protective Custody

On 9/6/25, your child, Almira Davis
(child's or children's name(s))

was placed into the protective custody of the Oregon Department of Human Services, Child Welfare as authorized by ORS 419B.150. Child Welfare took this action:

- ☐ Because it was ordered by the court.
- ☒ To protect your child from an imminent threat of severe harm.
- ☐ To protect your child from an imminent threat of physical damage or harm if ICWA/ ORICWA* applies.
- ☒ To protect your child from an imminent threat of severe harm the child poses to themselves or others.
- ☐ To protect your child from an imminent threat that your child would be moved outside the juvenile court's jurisdiction.
- ☐ To have a suspicious injury on your child medically assessed and photographed, as required by ORS 419B.023.

Shelter Hearing

A court hearing will be held on:

DATE: - 9/8/25

TIME: - 1-2pm

LOCATION: 222 N 1st Ave Hillsboro

It is important you attend this hearing.

At the hearing, the judge will decide whether your child will be placed with you or will remain placed out of your home.

You may be represented by an attorney or you may ask the court to appoint an attorney for you.

You may bring support people with you to the hearing.

If your child is an ICWA/ORICWA* eligible Indian child, your child's Tribe has the right to be present and heard at this hearing.

*ICWA/ORICWA means the Indian Child Welfare Act and the Oregon Indian Child Welfare Act.

Your child was placed...

- ☐ With a parent, guardian, or Indian custodian.
- ☐ In foster care with a relative resource parent.
- ☐ In foster care with a non-relative resource parent.
- ☐ With a Tribal resource parent.
- ☒ At a medical facility.
- ☐ At a behavioral facility.

Reunification is Child Welfare's first goal when a child is placed out of your care.

If your child or their sibling is placed with a resource parent who is not a relative, please note: Child Welfare is required by law to inform you that if your child or their sibling is placed in foster care with a resource parent who is not a relative for at least 12 total months, the non-relative resource parent will have the same status and priority as a relative when Child Welfare considers who should be a potential adoptive parent for your child or their sibling, if applicable. If your child or their sibling is less than two years old, the non-relative resource parent will have the same status and priority as a relative after caring for your child or their sibling for half of their life. ***This does not apply to a child or their sibling for whom ICWA/ ORICWA* applies.***

Documents (continued)

LEGACY HEALTH MRN: 7001510862 Name: ALMIRA DAVIS DOB: 06/23/2011

You Should Know:

- Reunification is Child Welfare's **first** goal when a child is placed into protective custody.
- You will have family time with any child placed out of your home, if safe and appropriate.
- You will be provided general information about your child's placement.
- You may participate in developing a safety plan for your child.
- You will be asked for names of relatives, individuals who may have cared for your child, or family friends who may be able to provide a safe, temporary home for your child.
- You will be asked for names of individuals who could support you and/or help manage your child's safety.
- You will be treated with dignity and respect, free from discrimination.
- You may have your language or other needs accommodated.
- You may request a copy of your records maintained by the Oregon Department of Human Services at www.oregon.gov/odhs/pages/records-requests.aspx, or leave a message for the Public Records Unit at (503)945-5617. Any requests for records are subject to applicable federal and state confidentiality laws.

Narrative
Requested by PD for assault. PD states there was reports of physical altercation between Pt and father. Reports describe Pt in car being choked and struck in the head. Found 14 Y/O F with PD, sitting on curb. Pt AOX4, crying and in emotional distress. Pt unable to answer questions for the first 10 min on scene. Pt BP and pulse obtained. Visual assessment was unremarkable, no obvious life threats present. Pt is scared and unwilling to describe events when asked. Pt ultimately states "yes" when asked if she was struck or choked. Pt denies LOC. EMS wait with Pt on scene while initial investigation conducted by PD. PD asking if Pt can be transported to RC per DHS request. Pt in severe emotional distress and unwilling to accompany providers to ambulance.
EMS get permission from PD to go into Pt apartment to obtain some personal belongings so pt will be more comfortable at RC. Providers assist pt pack an overnight bag with clothes and toiletries. Pt and belongings escorted to ambulance. Pt transported C1 to RC. Pt sat quietly throughout transport, did not appear willing to answer further questions. No changes to Pt overall condition during transport. Pt transferred to ED bed, care transferred to ED staff for further evaluation. M118 clear.

**CONDITIONS OF PATIENT REGISTRATION
PER VISIT**

Patient Name: Almira Davis
CSN: 590091661
DOB: 6/23/2011

Medical Consent

- I agree to the health care services provided by Legacy. I know that I have a say in the care I receive. I also know that I have a choice of where I receive my care if my doctor refers me for more services.
- I understand that I can refuse services at any time. If my doctors provide me medical care in good faith, I agree they should not be responsible if they did not know that I did not want to receive services.
- If a health care worker is exposed to my blood or body fluids in a way that poses a risk for transmission of a blood-borne infection, I give my consent to be tested for infections such as HIV, hepatitis B and hepatitis C at no cost to me, so the health care worker may be treated promptly. In such situations, I authorize release of applicable information to the health care worker and his/her health care provider.
- I acknowledge that the health care provider(s) treating me may be independent contractors, not employed by Legacy. I specifically acknowledge and understand that certain physicians providing care to me, including but not limited to any radiologists, anesthesiologists, pathologists and emergency room physicians involved in my care are independent contractors and not agents or employees of Legacy. I understand such physicians are independent health care providers who have privileges at this hospital.
- I give my consent to engage in my visit with my provider via audio or video conferencing. I understand that my provider uses HIPAA-compliant technology to transmit and receive audio and video, and stores all notes and information related to my treatment in a manner that is compliant with state and federal laws. I understand that it is my responsibility to ensure that my physical location during my visit is free of other people to ensure confidentiality. Furthermore, I understand that recording my session is prohibited.
- I agree to allow Legacy to take, reproduce and use photos, video tape, video monitoring/recording or audio recording for the purpose of diagnosis, testing, medical evaluation, care or treatment (including invasive procedures), patient safety or medical education and to preserve clinical information. I understand that this material may be treated as part of my medical record and that Legacy privacy policies apply.
- I understand that Legacy helps teach students in health care, and students may assist in my care. I also understand, I may refuse such care, and that my request will be considered on a case-by-case basis.
- I agree Legacy is not responsible for my personal belongings and valuables. I agree to send my personal belongings and valuables home with my family or friends.
- I understand that I have rights as a patient and that I will be treated with dignity and respect. I agree that Legacy has offered me a *Patient Rights and Responsibilities* brochure that has details about my rights.

INSURANCE AND CONSENT

- I agree to pay for any care I receive at Legacy. I understand that I may also be billed by other doctors and businesses who help in my care.
- I understand Legacy will try to bill my insurance and others who may pay for my care and that my insurance, including Medicare or Medicaid, should pay Legacy directly. If my insurance or other party does not pay, I understand I am responsible for my bill.
- I accept that Legacy may use a third party to assess my ability to pay for my care. This is called an "ability to pay assessment." I consent to Legacy releasing and sending my patient information to debt collectors, and the debt collectors' agents and third-party vendors, for payment and collection purposes. If my bill is sent to collections, I understand that I may need to pay for all related costs.
- I understand that Legacy Health and contracted business entities may contact me by telephone or any electronic means associated with me, including wireless numbers. I understand that they may leave voicemail messages, text messages and email messages for me and include information allowed by law (including debt collection laws) regarding amounts owed by me or services provided to me. I also understand that prerecorded/artificial voice messages and/or auto-dialer services may be used for communications related to my account.

PAYMENT ASSISTANCE

- I understand that if a bill for my care is too much for me to pay, Legacy has a financial assistance program that may help me. I can ask for information about this program at any time. I understand that I will need to give Legacy information to prove that I financially qualify for this program. I understand I can also arrange a payment plan.
- I can call customer service at 503-413-4048 or 1-800-495-7076 to learn more about both of these options.

PATIENT ACKNOWLEDGEMENT

- I have read and I understand the above information. I have asked questions about anything that is not clear to me, and I understand the answers that I was given. If I cannot read this form or ask questions because I am getting care for an emergency, I understand that I will be given the above information as soon as I am able to receive it.
- I promise that all information that I have given is correct. I have read and I agree to the terms of this form. I promise that I am the patient and accept the terms of this form, or that I am allowed to sign this form and accept the terms on behalf of the patient.

DHS Report

History:

PCP: Unknown, Physician

I reviewed patient's prior external records (not from this ED), notably: Previous cares visit in 2020

Part or all of the history obtained came from the following independent historian: parent/guardian.

11 y.o. female presents to the ED with concerns for abuse.

Per DHS-patient was hit by her father multiple times yesterday. He also grabbed her by the left arm and pulled her on the pavement. She also fell and hit her forehead on the ground. Patient denies loss of consciousness or vomiting. She denies that she has headaches today. Patient says she has left forearm pain today. She says she also has some cuts on her legs.

HPI

3: 1 cm abrasion

Neurological:

Mental Status: She is alert.

Motor: No abnormal muscle tone.

Procedures:

Procedures

MDM Summary (Problems Addressed, Differential Diagnosis, and Plan):

11 y.o. female, presents with multiple abrasions, left forearm pain, scalp tenderness after altercation with father yesterday

Chronic conditions, specifically none, makes patient higher risk for none

The following social determinants of health: problems related to social environment which significantly limit diagnosis and treatment: Patient has been involved in DHS investigations regarding domestic violence in the home

Problem list with differential diagnosis and plan:

1. Head injury-differential diagnosis includes was not limited to intracranial hemorrhage, skull fracture, concussion, contusion
2. Left arm pain-differential diagnosis includes was not limited to forearm fracture, wrist fracture, wrist dislocation, elbow fracture, forearm contusion-we will check an x-ray
3. Abrasions-we will document with photos

Regarding consideration of admission: Patient with no need for surgical management of any of her injuries

05/19/2023 - ED in Legacy Randall Children's Emergency Department (continued)

ED Provider Note (continued)

Diagnostic tests considered but not performed: Head CT-patient had no loss of consciousness or vomiting and has been acting normally with a grossly normal neurologic exam and does not need a head CT per PECARN criteria as I do not suspect intracranial hemorrhage or skull fracture, x-rays of lower extremities-no bony tenderness with no signs of fractures

Results and Interventions:

I reviewed the relevant lab and imaging studies to help with my assessment and plan for this patient.

I independently interpreted the following: 2 view left forearm XR as interpreted by radiology and viewed by me shows no fractures

Medications given: Medications - No data to display

Discussion, Progress, and Consults:

I discussed the management of patient with the following providers: CARES SW, DHS caseworkers

ED Course:

Synopsis (pertinent exam findings, test results, clinical summary): 11-year-old female brought in by DHS after being struck by her father several times yesterday as well as being dragged on the ground. Patient has mild scalp tenderness but no loss of consciousness or vomiting with a normal neuro exam so do not suspect intracranial hemorrhage or skull fractures and she does not need a head CT. Patient has left forearm pain. She had an x-ray of this area with no fractures noted on x-ray. She most likely has a contusion. She has several abrasions to her lower extremities. Photos were taken of the wounds.

Cares social work came to the ER to make a referral to CARES clinic. DHS has made a safety plan for patient and sister. UDS was sent for a drug screen. Patient will have follow-up in CARES clinic she should also follow-up with her PCP

The following prescription medication was considered but not prescribed: Narcotic pain medications- pain well controlled with OTC medications

Discussed with patient and/or parent the diagnostic findings, aftercare, follow-up, and return precautions. Patient and/or parent were given the opportunity to ask questions.

Diagnosis and Disposition:

1. **Contusion of left forearm, initial encounter**
2. Abrasions of multiple sites

ED Discharge Prescriptions

There were no medications prescribed for the patient upon discharge

Condition: stable

Presenting Concern:

11 y.o. Almira Davis presented to Randal Children's Emergency Department (RCH CED) for concerns of physical abuse by her father, Alquan Davis. She was accompanied by her sister, Amaiya, age 13, and DHS Caseworkers Amy Lumbreras and Jessica Bond.

The following information was provided by Amy Lumbreras, DHS Worker:

Ms. Lumbreras reports DHS is investigating an incident that occurred yesterday afternoon, when Alquan Davis picked up his two children from the after school program at their apartment complex. Mr. Davis was reportedly angry that Almira had candy in her mouth. He told her to spit it out. When they got in the car, Mr. Davis reached into the backseat and hit her 2 - 3 times on her thighs with a belt. Mr. Davis then dragged Almira out of the car by her left lower arm and pulled her across the pavement, scraping her knees. Almira reported her shirt was ripped off during this incident, so she was just wearing her bra.

At one point the apartment manager came out and Mr. Davis and Almira got back in the car. Mr. Davis hit her multiple times again. Almira's sister, Amaiya, reportedly was trying to block Mr. Davis from hitting Almira, so Mr. Davis told her "Oh you want a butt spanking too?" Almira got out of the car and tried to run to a friend's home for help, but Mr. Davis caught up with her and "popped" her in the mouth. Almira described this as an open hand to the face, which was hard enough to knock her to the ground and hit her head. Mr. Davis brought her back to the car and they drove to a friend's home. The friend reportedly lectured both girls and told them to listen to their dad.

Ms. Lumbreras reports that this incident was witnessed by another parent, who reportedly told the school and possibly police. Reportedly police responded to the home and checked Almira, but saw no visible injuries. However, on review, DHS went out to investigate.

Person(s) of Concern - Name and Relationship:

Alquan David, Father

Location of Occurrence:

672 NE Autumncreek Way, Hillsboro, OR 97006

Date/Time of Incident:

The afternoon of May 18

05/19/2023 - ED in Legacy Randall Children's Emergency Department (continued)

Clinical Notes (continued)

Care Providers/Visitation/Marriage or Relationship History:

Almira and Amaiya were placed in their father's care after they were removed from their mother's care due to her substance use. Ms. Lumbreras isn't sure how long ago this happens but believes it was several years ago. Currently their mother has visits every week for several hours.

Parent/Legal Guardian Employment:

Mr. Davis works as a bus driver.

Current Medical Condition:

Almira is complaining of arm pain and reports having a headache for 15-20 minutes after hitting her head. She also reports off and on head pain today.

Past Medical History:

None known.

Methods of Discipline:

Mr. Davis reports physical discipline, using his hands and a belt.

Development/Mental Health/Special Needs:

None known.

Daily Schedule (sleep environment, routine, etc.):

Unknown by DHS.

Exposure to Drugs/ETOH:

Almira's mother has a history of substance use.

Exposure to Domestic Violence:

DHS believes there was past history of violence between the parents when they were together.

Family Mental Health History:

Unknown

Other Pertinent Information:

Community Contacts:

Amy Lumbreras, Assigned Caseworker/Beaverton: 503-551-6134

Medical Triage at ED:

Dr. Linnea Wittick performed a physical exam and took photographs.

Plan:

CARES Northwest to review this information and make follow up recommendations. Almira was discharged into the care of DHS. They have not taken custody and are working on a safety plan with a family member or friend to care for the girls through the weekend. They do not yet have a specific plan but are working on it.

Tip

Apply an ice pack or bag of frozen peas to a bruise for 15 to 20 minutes several times a day. Keep a thin cloth between the ice or frozen peas and your skin. The cold can help reduce redness and swelling.

Documents

E-Hospital Conditions of Registration - Electronic signature on 5/19/2023 2053 (effective from 5/19/2023) - E-signed

**CONDITIONS OF PATIENT REGISTRATION
PER VISIT**

Patient Name: Almira Davis
CSN: 545565996
DOB: 6/23/2011

Medical Consent

- I agree to the health care services provided by Legacy. I know that I have a say in the care I receive. I also know that I have a choice of where I receive my care if my doctor refers me for more services.
- I understand that I can refuse services at any time. If my doctors provide me medical care in good faith, I agree they should not be responsible if they did not know that I did not want to receive services.
- If a health care worker is exposed to my blood or body fluids in a way that poses a risk for transmission of a blood-borne infection, I give my consent to be tested for infections such as HIV, hepatitis B and hepatitis C at no cost to me, so the health care worker may be treated promptly. In such situations, I authorize release of applicable information to the health care worker and his/her health care provider.
- I acknowledge that the health care provider(s) treating me may be independent contractors, not employed by Legacy. I specifically acknowledge and understand that certain physicians providing care to me, including but not limited to any radiologists, anesthesiologists, pathologists and emergency room physicians involved in my care are independent contractors and not agents or employees of Legacy. I understand such physicians are independent health care providers who have privileges at this hospital.
- I give my consent to engage in my visit with my provider via audio or video conferencing. I understand that my provider uses HIPAA-compliant technology to transmit and receive audio and video, and stores all notes and information related to my treatment in a manner that is compliant with state and federal laws. I understand that it is my responsibility to ensure that my physical location during my visit is free of other people to ensure confidentiality. Furthermore, I understand that recording my session is prohibited.
- I agree to allow Legacy to take, reproduce and use photos, video tape, video monitoring/recording or audio recording for the purpose of diagnosis, testing, medical evaluation, care or treatment (including invasive procedures), patient safety or medical education and to preserve clinical information. I understand that this material may be treated as part of my medical record and that Legacy privacy policies apply.
- I understand that Legacy helps teach students in health care, and students may assist in my care. I also understand, I may refuse such care, and that my request will be considered on a case-by-case basis.
- I agree Legacy is not responsible for my personal belongings and valuables. I agree to send my personal belongings and valuables home with my family or friends.
- I understand that I have rights as a patient and that I will be treated with dignity and respect. I agree that Legacy has offered me a *Patient Rights and Responsibilities* brochure that has details about my rights.

INSURANCE AND CONSENT

- I agree to pay for any care I receive at Legacy. I understand that I may also be billed by other doctors and businesses who help in my care.
- I understand Legacy will try to bill my insurance and others who may pay for my care and that my insurance, including Medicare or Medicaid, should pay Legacy directly. If my insurance or other party does not pay, I understand I am responsible for my bill.
- I accept that Legacy may use a third party to assess my ability to pay for my care. This is called an "ability to pay assessment." I consent to Legacy releasing and sending my patient information to debt collectors, and the debt collectors' agents and third-party vendors, for payment and collection purposes. If my bill is sent to collections, I understand that I may need to pay for all related costs.
- I understand that Legacy Health and contracted business entities may contact me by telephone or any electronic means associated with me, including wireless numbers. I understand that they may leave voicemail messages, text messages and email messages for me and include information allowed by law (including debt collection laws) regarding amounts owed by me or services provided to me. I also understand that prerecorded/artificial voice messages and/or auto-dialer services may be used for communications related to my account.

PAYMENT ASSISTANCE

- I understand that if a bill for my care is too much for me to pay, Legacy has a financial assistance program that may help me. I can ask for information about this program at any time. I understand that I will need to give Legacy information to prove that I financially qualify for this program. I understand I can also arrange a payment plan.
- I can call customer service at 503-413-4048 or 1-800-495-7076 to learn more about both of these options.

PATIENT ACKNOWLEDGEMENT

- I have read and I understand the above information. I have asked questions about anything that is not clear to me, and I understand the answers that I was given. If I cannot read this form or ask questions because I am getting care for an emergency, I understand that I will be given the above information as soon as I am able to receive it.
- I promise that all information that I have given is correct. I have read and I agree to the terms of this form. I promise that I am the patient and accept the terms of this form, or that I am allowed to sign this form and accept the terms on behalf of the patient.
